On Emergency Petition for a Writ of Mandamus to the
United States District Court for the Western District of Texas,
Austin Division, No. 1:26-cv-01601-RP-DH
The Honorable Robert L. Pitman, United States District Judge
The Honorable Dustin M. Howell, United States Magistrate Judge

EMERGENCY PETITION FOR WRIT OF MANDAMUS

Introduction

Petitioner Cory J. Bennett respectfully petitions for a writ of mandamus directing the United States District Court for the Western District of Texas to decide his pending application to proceed in forma pauperis, complete screening review under 28 U.S.C. § 1915(e)(2), and determine whether process may issue. Threshold § 1915 review remains unresolved, no summons has issued, and no defendant has been served. As a consequence, Petitioner cannot access the court-directed service mechanism authorized by § 1915(d) and Federal Rule of Civil Procedure 4(c)(3). Meanwhile, continued judicial inaction consumes the narrow window remaining to provide notice and obtain a ruling before Fall 2026 academic deadlines expire.

The requested writ leaves all substantive determinations—including IFP eligibility, complaint screening, and any prospective injunctive relief—entirely to the district court.

Petitioner initiated the underlying civil-rights action on June 12, 2026, filing the Complaint, an IFP application, and proposed summonses. The clerk docketed the IFP application as Dkt. 3 on June 23, 2026. The district court has not ruled on that application, completed § 1915(e)(2) screening, or authorized process. No Defendant has appeared or received formal process.

On June 29, 2026, Petitioner moved for a preliminary injunction regarding Fall 2026 accommodation procedures and course enrollment. The district court denied that motion on July 2, citing a lack of notice to Defendants. On July 7, the court denied reconsideration, stating that Petitioner may refile the preliminary-injunction motion once notice is given to opposing parties and may then propose a briefing schedule.

Following that instruction, Petitioner pursued the threshold rulings required to secure court-issued process and formal service. Those motions were referred to the magistrate judge under general docket-management procedures. The magistrate judge has entered no order, report, or recommendation on Dkts. 3, 10, 11, or 12. On August 14, 2026, Petitioner filed Dkt. 13 asking the district judge to modify the referrals and expedite disposition. The electronic filing system automatically routed that motion back to the same magistrate judge. The clerk's Help Desk confirmed that all motions auto-refer to the magistrate judge, leaving the referral modification unaddressed by the district judge.

Under UT Austin’s published calendar, registration for readmitted students begins August 20, classes start August 24, late registration ends August 31, and permission-based adds close September 9. Without an IFP determination or § 1915 screening, court-directed service under § 1915(d) remains unavailable, consuming the remaining period required for Rule 65 notice, renewed briefing, and administrative implementation.

Although delay-based mandamus often involves prolonged inaction spanning multiple years, the Fifth Circuit evaluates the significance of judicial delay in context, measuring the passage of time against the operational window of the requested remedy (*In re Fort Worth Chamber of Commerce*, 100 F.4th 528, 534–35 (5th Cir. 2024)). Under Federal Rule of Civil Procedure 65(a)(1), notice to the adverse party is legally sufficient without perfected service of process (*Whirlpool Corp. v. Shenzhen Sanlida Elec. Tech. Co.*, 80 F.4th 536, 542–43 (5th Cir. 2023)). Nevertheless, withholding threshold IFP screening stalls the statutory service mechanism guaranteed to indigent litigants, foreclosing practical access to the preliminary-injunction procedure the district court prescribed.

Relief Sought

Petitioner requests a writ directing the district court to:

1. Adjudicate Petitioner’s application to proceed in forma pauperis (Dkt. 3);
 2. Complete screening review under 28 U.S.C. § 1915(e)(2);
 3. Resolve Dkts. 10 through 13 to determine issuance of process and service;
- and

4. Enter any resulting case-management orders necessary for the action to proceed.

Petitioner seeks solely to compel the district court to make these threshold determinations, leaving the substantive outcome of each matter to the trial court's discretion.

Since UT Austin's Fall 2026 registration and add periods are underway or imminent, Petitioner also requests expedited consideration under Fifth Circuit Rule 27.3. A companion emergency motion accompanies this petition.

Issue Presented

Whether mandamus is warranted when threshold IFP and § 1915(e)(2) screening remain unresolved; the district court conditioned renewal of a preliminary-injunction motion on notice to adverse parties; Petitioner repeatedly requested disposition of threshold service motions without receiving a ruling; the motion asking the district judge to modify the referral was automatically rerouted to the magistrate judge; and continued inaction threatens to extinguish the operational window for Fall 2026 academic relief.

Jurisdiction and Authority

This Court possesses jurisdiction under the All Writs Act, 28 U.S.C. § 1651(a), and Federal Rule of Appellate Procedure 21. Mandamus lies to confine an inferior court to the lawful exercise of its jurisdiction or to compel the performance of a clear judicial duty (*Roche v. Evaporated Milk Ass'n*, 319 U.S. 21, 26 (1943); *Will*

v. Calvert Fire Ins. Co., 437 U.S. 655, 661–62 (1978); *In re United States ex rel. Drummond*, 886 F.3d 448, 450 (5th Cir. 2018)).

Mandamus relief requires establishing that (1) no other adequate means exist to obtain relief; (2) the right to the writ is clear and indisputable; and (3) issuance of the writ is appropriate under the circumstances (*Cheney v. U.S. Dist. Court*, 542 U.S. 367, 380–81 (2004); *In re Volkswagen of Am., Inc.*, 545 F.3d 304, 311 (5th Cir. 2008) (en banc)).

Fifth Circuit Rule 21 requires a certificate of interested persons and copies of the supporting district-court papers attached to the petition. No opposing memoranda exist, no Defendant has appeared, and the district court has issued no written opinion or order explaining the delay.

Statement of Facts

I. The Civil Action and Unresolved IFP Application

Petitioner initiated this action on June 12, 2026, asserting claims under Title II of the Americans with Disabilities Act, Section 504 of the Rehabilitation Act, and 42 U.S.C. § 1983 against The University of Texas at Austin and six university officials. The initiating filing included an application to proceed in forma pauperis and proposed summonses. The clerk docketed the IFP application as Dkt. 3 on June 23, 2026. On June 26, the court entered an order restricting remote public access to the unredacted financial affidavit but did not rule on the application or complete § 1915(e)(2) screening. Dkt. 3 remains pending, no summons has issued, and no defendant has been served or appeared.

II. Preliminary-Injunction Proceedings and the July 7 Notice Condition

Petitioner executed a motion for preliminary injunction on June 29, 2026 (docketed as Dkt. 8 on July 1), seeking to assign Fall 2026 accommodation and enrollment decisions to uninvolved university officials. Dkt. 8 requested a briefing schedule following service or another recognized form of notice under Rule 65(a)(1). On July 2, the district court denied the motion for lack of notice. On July 7, the court denied reconsideration, entering a text order stating:

“Plaintiff acknowledges that notice is required before the Court can grant a preliminary injunction under Rule 65(a)(1), but asks the Court to (1) withhold ruling on his Motion for Preliminary Injunction, (Dkt. 8), until he effectuates notice on Defendants and (2) set a briefing schedule tied to the date Plaintiff gives that notice. The Court declines to grant Plaintiff’s request and cannot set deadlines in the manner Plaintiff requests. Plaintiff may refile his Motion for Preliminary Injunction at a later date once notice is given to opposing parties. In that Motion, Plaintiff may request a briefing schedule for the Court’s consideration.”

Under Federal Rule of Civil Procedure 65(a)(1), notice to the adverse party is legally sufficient without perfected Rule 4 service (*Whirlpool*, 80 F.4th at 542–43). However, the district court’s July 7 order tied preliminary-injunction proceedings directly to adverse notice while withholding the IFP screening required to unlock court-directed process under 28 U.S.C. § 1915(d). This deadlock leaves threshold

service stalled while the operational window for effective Fall 2026 relief closes.

III. Successive Requests for Process Rulings

Petitioner methodically pursued the rulings required to effect service:

- **Dkt. 10 (filed July 6):** Requested summons issuance or identification of remaining prerequisites. Referred to Magistrate Judge Howell on July 7 pursuant to the division's general docket-management order.
- **Dkt. 11 (filed July 21):** Requested emergency expedition of Dkts. 3 and 10. Referred by District Judge Pitman to Magistrate Judge Howell for disposition on July 22.
- **Dkt. 12 (filed August 6):** Requested prompt IFP disposition, § 1915(e)(2) screening, and service orders within five business days (by August 13) or a date certain. Automatically referred to Magistrate Judge Howell.

The five-business-day request in Dkt. 12 expired on August 13 without action. The magistrate judge has entered no order, report, or recommendation on any referred motion.

IV. The August 14 Request to the District Judge

On August 14, 2026, Petitioner filed Dkt. 13, formally asking District Judge Pitman to modify the referrals, withdraw the pending motions, and dispose of Dkts. 3 and 10–12 by August 18. Dkt. 13 explained that Rule 72 objections remain unavailable because no report or order has been entered, invoking the district judge's authority under 28 U.S.C. § 636(b).

Upon filing, CM/ECF automatically routed Dkt. 13 back to Magistrate Judge Howell. The ECF Help Desk confirmed that all filings auto-refer to the magistrate judge, who must manually forward motions to the district judge. Dkt. 13 has generated no ruling, timetable, or referral modification.

V. The Remaining Fall 2026 Window

UT Austin's published academic schedule establishes four critical dates: readmission registration on August 20, the start of classes on August 24, the close of late registration on August 31, and the final deadline for permission-based adds on September 9. Every additional day of inaction compresses the time available for summons issuance, notice, response briefing, judicial decision, and university administrative execution.

Reasons the Writ Should Issue

Mandamus is a drastic remedy reserved for extraordinary circumstances (*Allied Chem. Corp. v. Daiflon, Inc.*, 449 U.S. 33, 34–35 (1980)). The writ issues when the petitioner has no other adequate means to attain relief, the right to the writ is clear and indisputable, and the court determines that issuance is appropriate under the circumstances (*Cheney*, 542 U.S. at 380–81; *In re Volkswagen of Am., Inc.*, 545 F.3d 304, 311 (5th Cir. 2008) (en banc)).

I. Petitioner Has No Other Adequate Means to Obtain Relief

No appealable order or magistrate recommendation exists from which Petitioner can seek review under 28 U.S.C. § 1291 or Federal Rule of Civil Procedure 72.

Petitioner exhausted all district-court mechanisms by filing Dkt. 10 (summons motion), Dkt. 11 (expedition motion), Dkt. 12 (screening timetable request), and Dkt. 13 (motion to modify referral). Because an automated CM/ECF referral prevents Dkt. 13 from reaching the district judge, ordinary trial-court channels are deadlocked. An appeal following final judgment cannot remediate an academic semester that has already passed.

II. Petitioner Has a Clear and Indisputable Right to the Exercise of Jurisdiction

Mandamus is appropriate when a trial court fails to adjudicate matters properly presented to it (*Will v. Calvert Fire Ins. Co.*, 437 U.S. 655, 661–62 (1978); *In re United States ex rel. Drummond*, 886 F.3d 448, 449–50 (5th Cir. 2018)). Petitioner seeks solely to compel the performance of mandatory statutory duties:

First, 28 U.S.C. § 1915(a) requires evaluating financial eligibility based on economic criteria (*Gibbs v. Jackson*, 92 F.4th 566, 569 (5th Cir. 2024)), while § 1915(e)(2) mandates threshold screening. The district court has executed neither obligation.

Second, once IFP status is granted and a claim survives screening, 28 U.S.C. § 1915(d) and Federal Rule of Civil Procedure 4(c)(3) direct court officers to issue process and effect service. Withholding screening deprives an indigent litigant of this statutory mechanism.

Third, magistrate judges support but cannot supplant Article III judges (*Lawson v. Stephens*, 900 F.3d 715, 716 (5th Cir. 2018)). The district judge retains ultimate authority over referred matters and possesses the continuous duty to man-

age referrals under 28 U.S.C. § 636(b). Continued multi-week silence in the face of imminent external deadlines constitutes a failure to exercise prescribed jurisdiction.

III. Inaction Is Extinguishing the Underlying Remedy

The Fifth Circuit has established that judicial delay must be evaluated against the operational timeline of the requested relief (*In re Fort Worth Chamber of Commerce*, 100 F.4th 528, 534–35 (5th Cir. 2024)). When repeated, date-specific requests identify an impending external cutoff, procedural delay that consumes the remaining window is functionally equivalent to an operative denial.

Petitioner alerted the court to UT Austin’s Fall 2026 deadlines in Dkts. 8, 11, 12, and 13, requesting specific disposition dates to preserve adequate time for briefing and service. Inaction has reduced the operational window from 56 days when Dkt. 8 was executed to just one day before readmission registration begins on August 20 and five days before classes commence on August 24. Mandamus is necessary to compel the prompt completion of threshold IFP review so that the preliminary-injunction procedure authorized on July 7 remains practically viable.

Conclusion

Petitioner respectfully requests that this Court issue a writ of mandamus directing the district court to promptly rule on Petitioner’s IFP application (Dkt. 3), complete screening under 28 U.S.C. § 1915(e)(2), resolve Dkts. 10 through 13 as necessary to determine issuance of process, and enter any resulting orders. Given the impending academic deadlines, Petitioner requests expedited consideration under Fifth Circuit Rule 27.3.

July 7, 2026 text order — official notice of electronic filing

The following transaction was entered on July 7, 2026, at 3:58 p.m. CDT, in No. 1:26-cv-01601-RP-DH. No document is attached. The official docket text states:

Text Order DENYING [9] Motion for Reconsideration entered by Judge Robert Pitman. Plaintiff acknowledges that notice is required before the Court can grant a preliminary injunction under Rule 65(a)(1), but asks the Court to (1) withhold ruling on his Motion for Preliminary Injunction, (Dkt. 8), until he effectuates notice on Defendants and (2) set a briefing schedule tied to the date Plaintiff gives that notice. The Court declines to grant Plaintiff's request and cannot set deadlines in the manner Plaintiff requests. Plaintiff may refile his Motion for Preliminary Injunction at a later date once notice is given to opposing parties. In that Motion, Plaintiff may request a briefing schedule for the Court's consideration. (This is a text-only entry generated by the court. There is no document associated with this entry.) (cslc)

August 14, 2026 docket text for Dkt. 13

The notice of electronic filing for Dkt. 13 states, in substance:

MOTION to Expedite *Consideration by District Judge Robert L. Pitman*, MOTION *for District Judge Robert L. Pitman to Modify Referral and for Prompt Disposition of Dkt. 3 and Dkts. 10-12* ... Motions referred to Judge Dustin M. Howell. (Bennett, Cory)

The transaction was entered on August 14, 2026, at 10:04 a.m. CDT.

Attachment 2

Dkt. 10

**UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF TEXAS
AUSTIN DIVISION**

CORY J. BENNETT, Plaintiff,

Civil Action No. 1:26-cv-01601-RP-DH

v.

**THE UNIVERSITY OF TEXAS AT
AUSTIN; EMILY HSIAO; JAMES G.
SCOTT; SALLY K. RAGSDALE; JAY
BARTROFF; KELLI BRADLEY; and
JEFF GRAVES**, Defendants.

**PLAINTIFF'S MOTION FOR ORDER DIRECTING ISSUANCE OF
SUMMONSES AND PRO SE ELECTRONIC-FILING INSTRUCTIONS**

Plaintiff Cory J. Bennett respectfully moves for an order directing the Clerk to issue the summonses needed for service, or to identify any remaining step needed for issuance, and to provide any remaining instructions needed to complete pro se electronic-filing access in this case.

Plaintiff files this motion now because the Court's July 2, 2026 text order denying Plaintiff's Motion for Preliminary Injunction and Request for Expedited Consideration, Dkt. 8, identified lack of notice as the immediate barrier to consideration of the preliminary-injunction request. Plaintiff cannot cure that barrier without issued summonses or other instructions for completing notice, and Plaintiff cannot use the Court's electronic-filing and electronic-notice process without the remaining steps needed to activate the access the Court has approved.

Relevant Facts

Plaintiff filed this civil-rights action and related initiating papers on June 12, 2026. Those papers included proposed summonses and an application for permission to file electronically. Plaintiff's public complaint, proposed summonses, and electronic-filing application used Plaintiff's private-mailbox mailing address, where Plaintiff can receive court mail. The electronic-filing application is attached as Exhibit A.

On June 24, 2026, the Court granted Plaintiff's Pro Se Motion for Permission to File Electronically, Dkt. 2. The text order stated that Plaintiff would receive further instructions from the Clerk's Office. The notice of that order is attached as Exhibit B.

Plaintiff also received a June 24, 2026 notice listing "ECF Registration Instructions Letter to Cory J. Bennett," Dkt. 6. The notice of electronic filing is attached as Exhibit C. The letter filed as Document 6 is attached as Exhibit D. That letter directs Plaintiff to submit a support-desk ticket, but it does not provide the party-request or account-linking steps later identified as necessary to connect Plaintiff's PACER account to this case.

As of July 3, 2026, Plaintiff has not received, by mail or otherwise, the issued summonses or instructions needed to complete service. Plaintiff also has not received instructions sufficient to complete the party-request or account-linking process for pro se electronic filing in this case.

On June 26, 2026, Plaintiff submitted a NextGen CM/ECF registration request for the Western District of Texas. The request was rejected the same day because the system treated the request as an attorney registration and stated that Plaintiff must submit a party request so that the account can be linked in this Court. Plaintiff contacted the Western District of Texas ECF Help Desk the same day. The Help Desk directed Plaintiff to the PACER Service Center. Plaintiff emailed the PACER Service Center on June 26, 2026. As of July 3, 2026, Plaintiff has not received a response from PACER. The registration-status notice and related correspondence are attached as Exhibit E.

The delay now affects the preliminary-injunction schedule. Dkt. 8 asked the Court to set any preliminary-injunction response and hearing schedule only after Defendants received service or another form of notice accepted under Rule 65(a)(1). The July 2 text order denied Dkt. 8 because Plaintiff had not shown notice of the motion or this lawsuit. Plaintiff seeks the administrative materials and instructions needed to complete notice, file proof of notice, and allow Defendants an opportunity to respond.

Basis for Relief

Federal Rule of Civil Procedure 4(b) provides that, after the complaint is filed, a plaintiff may present a summons to the Clerk for signature and seal and that, if the summons is properly completed, the Clerk must sign, seal, and issue it to the plaintiff for service. Rule 4(c)(1) makes Plaintiff responsible for service of the summons and complaint within the time allowed by Rule 4(m). Plaintiff cannot complete that responsibility without issued summonses or instructions for obtaining them.

Federal Rule of Civil Procedure 5(d)(3)(B) provides that an unrepresented person may file electronically only if allowed by court order or local rule. The Court has granted Plaintiff permission to file electronically, but the June 24 text order contemplated further instructions from the Clerk's Office. Plaintiff therefore needs the Clerk's instructions for any remaining party-request or registration step needed to activate the approved access.

The requested order would provide only the materials and instructions needed to complete notice and file proof, so that Dkt. 8 can be considered after Defendants have an opportunity to respond.

Requested Relief

Plaintiff asks the Court to direct the Clerk to issue summonses for each Defendant based on the proposed summonses already submitted, or to identify any remaining step required for issuance. Plaintiff also asks the Court to direct the Clerk to provide the instructions needed to complete the electronic-filing access approved by the June 24 text order, including any party-request step the Clerk requires.

No Defendant has appeared, and there is presently no opposing counsel with whom Plaintiff can confer regarding this motion.

Respectfully submitted,

Hi,

It doesn't appear that pro se filers can complete e-filing registration due to how the form is set up. There is no option to change my role to a non-attorney role, and there doesn't appear to be another registration option for pro-se. My request was automatically rejected due to this.

No, I'm not an attorney. I am a pro-se filer, and I don't recall anything attorney-specific in registration for PACER.

I'll go ahead and contact them then. Thank you for your assistance.

Hi,
I am a pro se plaintiff in Bennett v. The University of Texas at Austin et al., No. 1:26-cv-01601-RP-DH. My NextGen CM/ECF registration request for the Western District of Texas was rejected on June 26, 2026 because the system treated it as an attorney registration. The TXWD ECF Help Desk directed me to contact PACER, and I emailed PACER on June 26, 2026.

As of July 3, 2026, I have not received a response. I also have not received the summons or instructions needed to complete service and electronic filing.

Please advise what steps I need to take to complete pro se electronic filing registration and obtain the materials or instructions needed for service.

BARTROFF; KELLI BRADLEY; and
JEFF GRAVES**, Defendants.

**PLAINTIFF’S EMERGENCY MOTION TO EXPEDITE DISPOSITION OF
IFP APPLICATION (DKT. 3) AND SUMMONS MOTION (DKT. 10)**

Plaintiff Cory J. Bennett respectfully moves for expedited disposition of his Application to Proceed in Forma Pauperis, Dkt. 3, and Motion for Order Directing Issuance of Summonses and Pro Se Electronic-Filing Instructions, Dkt. 10. A ruling on those motions is needed before summonses can issue and Defendants can receive the notice required for Plaintiff to renew his preliminary-injunction motion. That motion seeks relief under the Americans with Disabilities Act and Section 504 of the Rehabilitation Act concerning who at UT Austin will make the disability-accommodation and enrollment decisions Plaintiff needs for Fall 2026. The remaining service and briefing process will require time before the university’s registration and add deadlines. Plaintiff therefore requests prompt disposition of Dkts. 3 and 10.

Background

Plaintiff submitted the complaint, IFP application, and proposed summonses on June 12, 2026. The IFP application was entered as Document 3 on June 23. The Court’s June 26 order restricted access to the unredacted affidavit but did not decide the application.

The Court denied Plaintiff’s preliminary-injunction motion, Dkt. 8, on July 2 because Plaintiff had not shown that Defendants received notice of the motion or lawsuit. Plaintiff

then submitted Dkt. 10, which asks the Court to direct issuance of the proposed summonses or identify any remaining step Plaintiff must complete. The Clerk entered Dkt. 10 on July 6.

On July 7, the Court stated that Plaintiff may refile his preliminary-injunction motion after giving notice to the opposing parties and may then request an expedited briefing schedule. The Court separately referred Dkt. 10 to United States Magistrate Judge Dustin Howell. No summons has issued, and Dkts. 3 and 10 remain pending.

Expedited Consideration

Under 28 U.S.C. §1915(a)(1), the Court may allow an action to proceed without prepayment of fees when the required affidavit establishes inability to pay. Section 1915(e)(2) requires dismissal if a statutory ground applies. Plaintiff asks the Court to decide his IFP application and complete any review the Court determines must precede service.

The complaint asserts claims under the Americans with Disabilities Act and Section 504 of the Rehabilitation Act, and Dkt. 8 seeks preliminary relief on those claims. Plaintiff maintains that the complaint plausibly states at least one claim supporting that relief. If the Court permits such a claim to proceed after review under §1915(e)(2), process may issue and the Court may consider a renewed preliminary-injunction motion after Defendants receive notice.

If the Court grants IFP status and permits any claim to proceed, 28 U.S.C. §1915(d) directs court officers to issue and serve process, and Federal Rule of Civil Procedure 4(c)(3) requires the Court to order service. Rule 4(b), also cited in Dkt. 10, requires the Clerk to sign, seal, and issue a properly completed summons presented after the complaint is filed.

Formal service cannot begin until the Court decides the IFP application and summonses issue. The summonses must then be served before Plaintiff can renew his motion and the parties can brief it.

Dkt. 8 asks that officials who were not involved in the events described in the complaint make Plaintiff's Fall 2026 disability-accommodation and enrollment decisions. UT Austin's

general registration runs from August 20 through 27, classes begin August 24, and the undergraduate add deadline is August 31. Dkt. 8 at 2. Because service and briefing must occur before the Court can consider a renewed motion, continued delay in resolving Dkts. 3 and 10 may limit the relief available before those university deadlines.

An expedited ruling would allow service and briefing to begin while Fall 2026 relief can still be considered, with full statutory review and time for Defendants to receive notice and respond.

Relief Requested

Plaintiff respectfully requests that the Court decide Dkts. 3 and 10, complete any review that must precede service, and identify anything else Plaintiff must provide. If the Court grants IFP status and permits any claim to proceed, Plaintiff asks the Court to direct issuance and service of the proposed summonses under 28 U.S.C. §1915(d) and Federal Rule of Civil Procedure 4(c)(3). Plaintiff also asks the Court to extend the Rule 4(m) service period to account for the time Dkts. 3 and 10 remained pending and to grant any other appropriate relief.

No Defendant has appeared, no opposing counsel is of record, and no summons has issued. Because no opposing counsel is available, Plaintiff could not confer about this motion and does not characterize it as unopposed.

Respectfully submitted,

Dkt. 12

**UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF TEXAS
AUSTIN DIVISION**

CORY J. BENNETT, Plaintiff,

Civil Action No. 1:26-cv-01601-RP-DH

v.

**THE UNIVERSITY OF TEXAS AT
AUSTIN; EMILY HSIAO; JAMES G.
SCOTT; SALLY K. RAGSDALE; JAY
BARTROFF; KELLI BRADLEY; and
JEFF GRAVES**, Defendants.

**PLAINTIFF’S SUPPLEMENTAL MOTION FOR PROMPT RESOLUTION OF
IFP STATUS AND § 1915 REVIEW**

Plaintiff Cory J. Bennett supplements Dkt. 11 as less time remains to obtain effective Fall 2026 relief. This motion also identifies the specific decisions needed to complete pre-service review: a disposition of Dkt. 3 under 28 U.S.C. § 1915(a)(1) and completion of § 1915(e)(2) review through an order, a report and recommendation, or both. For each defendant against whom at least one claim may proceed, Plaintiff also requests issuance of a summons and Marshal service of the then-operative complaint.

Plaintiff’s sworn affidavit establishes that prepayment of the filing fee and serving costs would prevent him from meeting ordinary living expenses. Dkt. 3 therefore satisfies the financial standard under 28 U.S.C. § 1915(a)(1). An IFP determination rests solely on economic criteria. *Gibbs v. Jackson*, 92 F.4th 566, 569 (5th Cir. 2024). For each defendant against whom the Court authorizes at least one claim to proceed, Rule 4(c)(3) requires court-ordered service, and Plaintiff may rely on the United States Marshal to complete it. *Id.*

Fall registration at UT Austin resumes August 19, and classes begin August 24, leaving limited time for service, briefing, and a ruling.

Pending IFP and Screening Decisions

Plaintiff submitted their complaint, IFP application, and proposed summonses on June 12, 2026. The Clerk entered the IFP application as Dkt. 3 on June 23. The Court has not ruled

on Dkt. 3, identified any defendant for service, authorized issuance of process, or stated the result of its § 1915(e)(2) review. Those unresolved pre-service matters continue to prevent Plaintiff from completing notice and refiling the preliminary-injunction motion as permitted by the Court’s July 7 order.

Plaintiff’s preliminary-injunction motion was entered as Dkt. 8 on July 1. On July 2, the Court denied the motion as Plaintiff had not shown that Defendants received notice of the motion or the lawsuit.

Plaintiff filed Dkt. 10 to obtain the summonses and service process needed to provide notice. The Clerk entered Dkt. 10 on July 6, and the Court referred it to United States Magistrate Judge Dustin Howell on July 7.

The Court also denied reconsideration on July 7. The order states: “Plaintiff may refile his Motion for Preliminary Injunction at a later date once notice is given to opposing parties. In that Motion, Plaintiff may request a briefing schedule for the Court’s consideration.”

Plaintiff filed Dkt. 11 on July 21 after Dkts. 3 and 10 remained unresolved. On July 22, the Court referred Dkt. 11 to Judge Howell “for disposition” under 28 U.S.C. § 636(b)(1)(A), Rule 72, and Rule 1(c) of Appendix C to the Western District’s Local Rules. No order has resolved Dkt. 3, Dkt. 10, or Dkt. 11. No summons has issued.

Pre-Service Review and Resulting Service

Section 1915(a)(1) governs financial eligibility to proceed without prepayment. Section 1915(e)(2) requires dismissal when the Court determines that a listed ground applies. Rule 72 directs a magistrate judge to conduct assigned nondispositive and dispositive proceedings promptly. Plaintiff requests prompt completion since the remaining Fall 2026 enrollment and course-add periods are now measured in days, and delays in service and briefing could prevent effective relief.

The pending pre-service process can be completed through a ruling on Dkt. 3, the disposition resulting from § 1915(e)(2) review, and, for each defendant against whom at least

one claim may proceed, a service order. The service order may direct the Clerk to issue the corresponding summons and direct the Marshal to serve the then-operative complaint.

The referral procedures also address any proposed claim dismissal. A magistrate judge may enter orders on nondispositive matters under § 636(b)(1)(A). A claim-dispositive screening result may be presented to the district judge through proposed findings and recommendations under § 636(b)(1)(B) and Rule 72(b). The screening disposition may authorize service on some defendants, recommend dismissal of other claims or defendants, or do both.

Remaining Time for Fall 2026 Relief

Plaintiff's preliminary-injunction request concerns Fall 2026 accommodations, enrollment, course planning, and prerequisite decisions. The proposed relief includes administrative enrollment and deadline adjustments when ordinary registration dates have passed. Dkt. 8 at 1–2.

UT's current Fall 2026 schedule resumes registration on August 19 and begins classes on August 24. Ordinary class-add periods close August 27 for graduate and law students and August 31 for undergraduate students. Late-registration and permission-based add procedures remain available through September 9. University of Texas at Austin, Office of the Registrar, *2026–2027 Academic Calendar; When to Register and Pay, Fall 2026* (last visited Aug. 6, 2026). Those later procedures leave a limited opportunity for administrative relief, but they do not eliminate the time required for summons issuance, service, renewed Rule 65 briefing, judicial consideration, and University implementation.

After IFP review and screening, several steps remain before Plaintiff can obtain effective Fall 2026 relief. For each defendant authorized for service, the Clerk must issue the corresponding summons, and the Marshal must serve the summons and then-operative complaint. Plaintiff must then refile the preliminary-injunction motion as permitted by the July 7 order. Defendants must receive an opportunity to respond. The Court must then

decide the motion, and any Defendant against whom relief is granted must comply with the Court's order.

Prompt completion of pre-service review can preserve the remaining possibility of effective Fall 2026 relief, including late or administrative enrollment, course registration, and implementation of prospective accommodations. If the Court requires additional financial information, corrected summonses or other process, clarification of the pleading, an amended complaint, or a hearing before completing review, Plaintiff requests that the Court identify or schedule the required step promptly and set any necessary response deadline.

Requested Relief

Plaintiff respectfully requests that the Court:

- A. grant Plaintiff's Application to Proceed in Forma Pauperis, Dkt. 3, under the economic standard in 28 U.S.C. § 1915(a)(1);
- B. complete the pending review under 28 U.S.C. § 1915(e)(2) through any appropriate order and, if Judge Howell proposes dismissal of any claim or defendant, a report and recommendation under 28 U.S.C. § 636(b)(1)(B) and Rule 72(b);
- C. for each defendant against whom at least one claim may proceed, direct the Clerk to issue a summons and order the United States Marshal to serve the summons and the then-operative complaint under 28 U.S.C. § 1915(d) and Rule 4(c)(3);
- D. permit issuance and service on any defendant for whom the screening disposition authorizes service, without delaying that service solely because the same disposition recommends dismissal of other claims or defendants;
- E. resolve Dkts. 10 and 11 consistently with the IFP and screening dispositions;
- F. within five business days after this motion is entered on the docket, if practicable, rule on Dkt. 3 and complete § 1915(e)(2) review by order, report and recommendation, or both. If that is not practicable, identify within that period any additional submission required from Plaintiff and set a prompt date certain for completing pre-service review;

- G. extend the Rule 4(m) period through 90 days after the Clerk issues the summonses authorized by the Court, or for another period sufficient for Marshal service; and
- H. grant further relief necessary to complete service and preserve the remaining possibility of effective Fall 2026 relief.

No Defendant has appeared, no summons has issued, and no opposing counsel is of record. Plaintiff therefore could not confer regarding this motion and does not characterize it as unopposed.

Dkt. 13

**UNITED STATES DISTRICT COURT
WESTERN DISTRICT OF TEXAS
AUSTIN DIVISION**

CORY J. BENNETT, Plaintiff,

Civil Action No. 1:26-cv-01601-RP-DH

v.

**THE UNIVERSITY OF TEXAS AT
AUSTIN; EMILY HSIAO; JAMES G.
SCOTT; SALLY K. RAGSDALE; JAY
BARTROFF; KELLI BRADLEY; and
JEFF GRAVES**, Defendants.

**PLAINTIFF’S EMERGENCY MOTION TO MODIFY REFERRAL AND FOR
PROMPT DISPOSITION OF DKT. 3 AND DKTS. 10–12**

Plaintiff Cory J. Bennett respectfully asks Judge Pitman to decide this Motion and modify the referrals of Dkt. 3 and Dkts. 10–12. Plaintiff asks the Court to decide his application to proceed in forma pauperis (“IFP”) and complete review under § 1915(e)(2). The Court can then decide whether process should issue and how service should proceed. Plaintiff requests prompt rulings or a date certain as notice and briefing must occur before the Court can consider a renewed preliminary-injunction motion concerning his Fall 2026 accommodations and enrollment.

Background

Plaintiff’s June 12, 2026 submission included his Complaint and IFP application together with proposed summonses. The Clerk entered the IFP application as Dkt. 3 on June 23. Dkt. 3 and the associated review under 28 U.S.C. § 1915(e)(2) remain pending. Issuance of process awaits those rulings.

Plaintiff’s preliminary-injunction motion was entered as Dkt. 8 on July 1. It sought to place Plaintiff’s Fall 2026 accommodation and enrollment decisions with UT officials who had not participated in the October 2025 restrictions or the later decisions about Plaintiff’s accommodations and enrollment. The motion requested briefing and a decision after service

or other notice accepted under Rule 65(a)(1). The Court’s July 2 text order denied Dkt. 8 for lack of a showing that Defendants had received notice of the motion or lawsuit. Plaintiff sought reconsideration in Dkt. 9. In its July 7 ruling on Dkt. 9, the Court stated that Plaintiff “may refile his Motion for Preliminary Injunction at a later date once notice is given to opposing parties” and may then request a briefing schedule.

Plaintiff pursued the rulings needed for notice through three successive filings.

First, Dkt. 10 requested issuance of the proposed summonses or identification of any remaining step required for issuance. The Clerk entered Dkt. 10 on July 6, and it was referred to Judge Howell on July 7.

Second, Plaintiff executed Dkt. 11 on July 16 after Dkts. 3 and 10 remained unresolved. The Clerk entered Dkt. 11 on July 21. Judge Pitman’s July 22 text order referred Dkt. 11 to Judge Howell “for disposition” under 28 U.S.C. § 636(b)(1)(A) and Rule 72. The order also cited Rule 1(c) of Appendix C to this Court’s Local Rules.

Third, Plaintiff filed Dkt. 12 on August 6 requesting rulings on IFP status and § 1915(e)(2) review. It also asked the Court to identify the claims and Defendants that may proceed and to enter the resulting orders for process and service. Dkt. 12 requested completion within five business days if practicable, with a prompt completion date for any remaining task. The notice of electronic filing states: “Motions referred to Judge Dustin M. Howell.”

The five business days requested in Dkt. 12 ended August 13. Dkt. 3 and its associated § 1915(e)(2) review remain pending, as do Dkts. 10–12. Issuance of process awaits those rulings.

Basis for Relief

Judge Pitman’s November 24, 2025 docket-management order directs referral of an IFP application for disposition. It also requires “a prompt recommendation as to whether the case should be dismissed as frivolous pursuant to 28 U.S.C. § 1915(e).” *In re Court Docket*

Management for Austin Division, Docket Management Order ¶ 2 (W.D. Tex. Nov. 24, 2025). Upon completion of those tasks, the Magistrate Judge must return the case to the District Court for further proceedings. *Id.*

Rule 72 likewise requires a magistrate judge to “promptly conduct the required proceedings” on referred nondispositive and dispositive matters. Fed. R. Civ. P. 72(a), (b)(1). Rule 72’s objection procedures apply after an order or recommendation issues, and neither has issued here. Plaintiff therefore asks Judge Pitman to modify the referrals or direct their prompt completion. Appendix C provides that assignments to magistrate judges are made by court order or a judge’s special designation and that a magistrate judge must conform to the requirements specified in an order of reference. W.D. Tex. App. C, R. 2(a), 3(a).

These pretrial referrals arise under 28 U.S.C. § 636(b). Section 636(b)(1) permits a district judge to designate a magistrate judge to act on specified pretrial matters. The District Court remains responsible for final disposition of matters reserved for an Article III judge. The Fifth Circuit has explained that magistrate judges “support, but cannot supplant, district judges.” Final authority over substantial issues must remain with the district court. *Lawson v. Stephens*, 900 F.3d 715, 716, 719–20 (5th Cir. 2018).

Judge Pitman entered the docket-management and referral orders, so the requested modification falls within § 636(b).

Expedited Consideration

Dkt. 12 identified the steps following § 1915(e)(2) review. After process issues and Defendants receive notice, a renewed preliminary-injunction motion would require briefing and a decision. UT Austin would then need time to implement any order before its Fall registration and add deadlines. Each step depends on disposition of Dkt. 3 and completion of the § 1915(e)(2) review.

UT Austin’s published Fall 2026 calendar sets August 20 registration for readmitted students, with classes beginning August 24. Undergraduate late registration continues

through August 31 and permission-based registration through September 9. University of Texas at Austin, Office of the Registrar, *2026–2027 Academic Calendar; When to Register and Pay, Fall 2026* (last visited Aug. 13, 2026). The later registration periods leave time for administrative action after the ordinary readmission-application cutoff.

Every additional business day before these rulings consumes time needed for summons issuance, service, renewed filing, briefing, decision, and implementation during the remaining Fall 2026 registration and add periods. Continued delay leaves less time to obtain practical relief before Plaintiff can present a renewed preliminary-injunction motion.

Plaintiff’s admission history provides a concrete example of mid-August administrative action. UT Admissions notified Plaintiff on August 13, 2024 that his admission decision had been updated. UT confirmed his Fall 2024 admission the next day. Plaintiff received confirmation of August orientation on August 15. After completing an advising meeting, his advisor stated that registration would occur on August 21. The Registrar then confirmed that Plaintiff had been added to a Fall 2024 course. Bennett Decl. ¶¶ 2–5, Exs. 1-A–1-E. That original transfer admission required new-student orientation and advising before registration. Plaintiff is now a returning senior and does not require incoming-transfer orientation. The 2024 chronology therefore demonstrates that UT completed a more administratively involved admission-and-registration process during the second half of August.

The Fifth Circuit has explained that judicial delay must be evaluated in context as cases require action on different timetables; urgency and repeated date-specific requests inform that analysis. *In re Fort Worth Chamber of Commerce*, 100 F.4th 528, 534–35 (5th Cir. 2024). That case involved a pending preliminary-injunction motion. Here, the unresolved IFP application and § 1915(e)(2) review control when process may issue. Defendants must then receive notice before Plaintiff may renew his preliminary-injunction motion.

The July 7 ruling permits Plaintiff to renew his preliminary-injunction motion only after notice; because the unresolved threshold proceedings presently prevent that notice, Plaintiff cannot yet invoke the renewed preliminary-injunction procedure the Court prescribed.

Further delay shortens the time available for briefing, decision, and implementation altogether.

Requested Relief

Plaintiff respectfully requests the following relief:

- A. Retain this Motion for disposition by Judge Pitman.
- B. Modify the referrals of Dkt. 3 and Dkts. 10–12 for disposition by Judge Pitman.
- C. Decide the IFP application, complete review under § 1915(e)(2), and enter any resulting process and service orders.
- D. Alternatively, leave the referrals in place and direct disposition of Dkts. 3 and 10–12 by August 18, 2026, if practicable. If disposition cannot be completed by then, identify at once any remaining task or submission required from Plaintiff and set the earliest practicable completion date that preserves time for service, an expedited response, a reply, and a ruling during the remaining Fall 2026 registration and add periods.
- E. Grant any further case-management relief needed to permit consideration of a renewed preliminary-injunction motion while UT Austin’s remaining Fall 2026 registration and add procedures remain available.

No Defendant has appeared or has counsel of record, so Plaintiff could not confer before filing.

EXHIBIT 1

**DECLARATION OF CORY J. BENNETT
IN SUPPORT OF EMERGENCY MOTION TO MODIFY REFERRAL**

I, Cory J. Bennett, declare as follows:

1. I am the Plaintiff in this action. I have personal knowledge of the facts stated in this declaration and can testify to them if the Court holds a hearing.
2. On August 13 and 14, 2024, UT Austin notified me that my admission decision had been updated and then confirmed my Fall 2024 admission. True and correct copies are attached as Exhibits 1-A and 1-B.
3. On August 15, 2024, UT Austin confirmed my registration for virtual orientation scheduled for August 19 through 21. A true and correct copy is attached as Exhibit 1-C.
4. By August 20, I had completed an orientation advising meeting. My advisor's follow-up email stated that registration would occur on August 21. A true and correct copy is attached as Exhibit 1-D.
5. On August 21, 2024, the UT Registrar confirmed that I had been added to a Fall 2024 course from a waitlist. A true and correct copy is attached as Exhibit 1-E.
6. My Fall 2024 admission was an original transfer admission. The process included new-student orientation and advising before registration. I am now a returning senior and do not require new-student orientation or transfer-student advising before registering. The present readmission process therefore does not require the onboarding steps that preceded my Fall 2024 registration.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Hi,

Thank you! I saw that I was accepted into the Mathematics program at UT Austin, though I'm wondering how I should go about starting the enrollment process and submitting documents so soon before the semester starts.

I also don't see anything on MyStatus about accepting admission or paying an enrollment deposit. Is there a different place I should be looking or a way I can do this in-person at a cashier's office?

Congratulations, waiting for classes paid off! You were added into a course off of the waitlist. Please check your class listing at <https://utdirect.utexas.edu/registration/classlist.WBX> to see your new class schedule.

If you are on a waitlist for another section of this course and no longer want it, remove yourself from that section's waitlist.
